Fun Fact

Napoleon once got attacked by 3,000 bunnies when he & his men arranged a rabbit hunt. When these rabbits were released for the hunt, every single rabbit turned on Napoleon & his men!

Riddle

The strangest creature you'll ever find. Two eyes in front and many more behind. What am I?

Снова В Школу!

Welcome back to another school year! This summer has been full of state fires, great fishing (for some areas), warm weather, and an occasional rain. Students should be pleased to hear that I know a bit more Russian than last year (может быть), but I know that hasn't always been the case. I am looking forward to seeing everyone again.

I do intend that our school will educate children to become the most successful and impactful community members as possible for the Village of Razdolna. I also believe that such is a cooperative effort between the village and school. Parent engagement is a vital factor towards a child's success, and there will be many opportunities for families to engage in their child's education this year.

We do have a few changes this year, much which will be outlined in a new Student-Parent

Handbook to be released in the next few weeks. One notable change based on much feedback...we will be limiting student cell phones much more this year! Cell phones have distracted students from their learning, and I don't intend for this to happen again. Finally, we do have several new summer teacher hires, and an updated [School Website](#). Never hesitate to reach out to me if you have any questions, comments, or concerns. THANK YOU!!

UPCOMING EVENTS

AUG 7th

- Enrollment / Registration

AUG 9th

- First Day of School

AUG 17th

- Saturday School

SEPT 24th

Measles Notice!!

Measles symptoms begin to show 7-14 days after infection and typically begin with High fever (may spike to more than 104°, cough, runny nose, and red watery eyes. Initial symptoms are followed by tiny white spots (Koplik spots) that may appear inside the mouth 2-3 days after symptoms begin. A red, blotchy rash that breaks out over most of the body 3-5 days after symptoms begin. Measles is very contagious, & can spread through the air when an infected person coughs/sneezes. It's so contagious that if one person has it, 9 out of 10 people around him/her may also become infected. A person can catch measles just by being in a room where a person with measles has been, even up to two hours after that person has left. Infected persons can spread measles to others before he or she knows they have the disease – from four days before developing the measles rash, through four days afterwards. **Please call the Homer Medical Center (or your provider) before visiting a clinic, or coming to school.**

Monthly Poll Info

If you ever wondered about our Monthly Poll (front page), please understand that no personal info will ever be collected! A Monthly Poll asks only **1 Question**. If you're reading this newsletter on a phone or computer, simply click/touch the **BLUE** letters. Your answer will keep our teachers informed on the making the best decisions possible for your child. Thank you!

Summer Hiring - Teachers

We've had a few teacher changes this summer. Teresa Wishart from Texas will be joining us as our new K/1 teacher, replacing Michelle Fournier. In addition, Michael Sturm will replace Laura Murphy as the new ELA/SS teacher.
